Dear Parent/Carer

We are thrilled to announce that we have secured much needed funding to replace the main school building. There has been significant speculation about the changes to come and at this early stage no decisions have been made.

The new building will be constructed adjacent to the existing main building, which will cause minimal disruption to learning. This is a profound and exciting development for Houghton and as such, it will greatly influence the outcomes and aspirations for our young people. This multi-million pound investment will transform the current school provision to provide an inspirational 21st Century environment for learning, teaching and our local community.

I am keen to engage with all stakeholders on the development of the new school building and will be creating a 'stakeholder working group' in the near future. If you would like to be involved, please contact us via email at info@kepier.com mentioning stakeholder working group in the message title.

We will update you on developments on a regular basis via letter, Facebook and Twitter.

With every best wish,

Nicola Cooper
Principal
